

Dear Prospective Member:

We are so glad you are considering joining IBEW Local 2228. We are excited that you are taking this step. Full membership has many benefits. Here are a few:

- The right to vote in Local Union elections.
- The right to vote on negotiated contracts.
- The right to submit bargaining proposals; and
- The right to attend union meetings and vote on motions.

More important than all of these is the right to have a say in the future of the Local Union.

If you remain a member in good standing for two consecutive years, you will be able to run for Local Union office or Delegate to the International Convention. Every Local Union Officer was a new hire at some point in their career so none of these things are out of reach. But you do not have to wait two years to make a difference because any member can volunteer for any number activities including one of the most challenging and rewarding: collective bargaining.

Joining is easy. All you need to do is complete the application form that follows and remit the \$5 admission fee required by the Local Union Bylaws. Your membership will follow from the International Office in a few weeks.

Again, thanks for considering membership in our great Union. We look forward to hearing from you soon.

In Solidarity,

Paul Cameron,

Business Manager / Financial Secretary
